

JENNIFER MIDQZ

LIGHTING AND FURNITURE DESIGN

Jennifer Midoz is a lighting and decorative furniture design studio founded in 2011. In the studio under the Viaduc des Arts, Jennifer Midoz and her team create large-scale projects, from first sketch to production and installation. All pieces are handcrafted and, in some cases, custom-made to order. They can be found in renowned boutiques, hotels and private residences.

Light is at the heart of all our creations. A subject explored through different mediums: metal for its reflections and projections, glass and ceramics for the elegance of their movements and subtle play of colors. Jennifer Midoz's universe draws its inspiration from nature, cinema and painting. Three worlds that nourish and moves the imagination of designer Jennifer Midoz on a daily basis.

A graduate of the Ecole Boulle, Jennifer started out in museography before creating her first brand as a jewelry designer. During this period, her inventiveness was structured by pure, architectural forms. Playing with textures that catch the light is undeniably one of Jennifer's passions. Perhaps this is what predestined her for the second stage of her career: the co-creation of the Jennifer Midoz studio, where lighting plays a fundamental role.

The following products are intended to be customised and assembled into compositions.
